### PART F - GLOSSARY AND APPENDIX

COMPONENT F1 GLOSSARY  
COMPONENT F2 APPENDIX 1

- subject to the requirements of the [Building Code of Australia](#) (BCA) the side and rear boundary setback may be reduced to zero. The Consent Authority will not grant this concession if it would result in the removal of significant vegetation or result in other adverse effects on the subject land or adjoining property; and
  - where buildings adjoin sensitive areas (residential or community oriented uses), buildings are to be setback a minimum of three metres from side and rear boundaries, and appropriately landscaped.
- ii) No buildings and associated or ancillary development are to be located within the 20 metre Pacific Highway Development Setback Area. See Component E13 for further information regarding this requirement, including mapped applicable areas.

## b) Open Storage/Work Areas

- i) If work or open storage areas are proposed (outside buildings), full details of those parts of the site to be used and the materials stored, are to be provided with the development application (DA).

- ii) Open work or storage areas are to be located, where practicable, at the rear of industrial developments. The Consent Authority will consider a variation to this control where work or storage areas can be appropriately screened from view by landscaping and/or fencing.

## c) Flooding

- i) Development of flood prone lands is to be undertaken in accordance with the Coffs Harbour City Council's [Floodplain Development and Management Policy](#).

## d) Acoustics

- i) Hours of operation of industrial activities should be between 6.00am and 6.00pm Monday to Saturday, with no work to be undertaken on a Sunday.
- ii) Where an activity is to operate outside of those hours, details should be provided addressing the necessity to do so, as well as the effect of noise impact on adjoining uses.

## e) Stormwater

- i) All stormwater is to be directed to the street drainage system or to an inter-allotment drainage easement where available.
- ii) Surface water is not to be directed to neighbouring properties.
- iii) Stormwater to kerb connections are to be via kerb adaptor units

*Note: Inter-allotment drainage via easements may be required.*

## f) Fencing

- i) All fencing, other than fences or walls to a maximum height of one metre above footpath level, is to be erected behind the front boundary setback.
- ii) Front fences or walls are to be designed not to obstruct casual surveillance to and from the industrial development.
