

## **Tigerair Adds Additional Melbourne-Coffs Harbour Services To Meet Increased Demand**

***New Saturday Return Services On Sale Today From \$79\* One Way For Travel  
Commencing 9 April 2016***

**3 March 2016:** Tigerair Australia today announced an additional weekly return service between Melbourne and Coffs Harbour in response to increased demand for more low cost services to the region.

The new Saturday services go on sale today from just \$79\* each way for travel commencing 9 April 2016, departing Melbourne at 10.40am and returning from Coffs Harbour at 1.00pm\*.

Due to increased demand, Tigerair Australia has also added a one off additional return service between Melbourne and Coffs Harbour on the Easter long weekend (Saturday 26 March, departing Melbourne at 9.40am and returning from Coffs Harbour at 12.00pm).

Tigerair Australia recently launched three weekly return services between the two popular destinations in December 2015 (Monday, Wednesday and Friday).

Tigerair Australia Commercial Director, Adam Rowe, says today's announcement of a new permanent Saturday service is fantastic news for consumers and tourism in both destinations.

"We've been pleased with demand for our services on the Melbourne-Coffs Harbour route since we first launched the route in December last year.

The introduction of Saturday flights is in direct response to overwhelming demand from consumers and provides around 18,700 additional visitor seats annually through Coffs Harbour Airport," said Mr Rowe.

Coffs Harbour Mayor, Councillor Denise Knight, says "We were always confident that Tigerair Australia's services between Melbourne and Coffs Harbour would prove to be really popular, but the announcement that an additional Saturday service is being added to the schedule to cope with demand is fantastic news for the city and entire North Coast region."

Tigerair Australia's four weekly return services between Melbourne and Coffs Harbour provide the most services on this route of any airline and deliver almost 75,000 visitor seats through Coffs Harbour Airport annually.

Tigerair Australia first launched services between Sydney and Coffs Harbour in February 2013 as the airline's first intrastate route. With the four weekly return services between Melbourne and Coffs Harbour and the three weekly return services between Sydney and

Coffs Harbour, the airline will provide over 118,500 visitor seats annually through Coffs Harbour Airport.

*\*Booking and travel periods apply. Routes and times are subject to change. Add a per person, per booking, booking and service fee when booking using credit cards and some debit cards (\$8.50 for domestic and \$12.50 for international). Add \$15 when booking by phone or at the airport. The booking and service fee does not apply to payments made using Australian-issued MasterCard debit cards. Visit [www.tigerair.com.au](http://www.tigerair.com.au) for full terms and conditions and to book your flight.*
