

Kangaroo rules, OK?

Look At Me Now Headland walk, Emerald Beach

Know the warning signs

- Avoid kangaroos that are mating, sparring, growling or clucking, or with a joey.
- Do not walk directly towards a kangaroo, stand up tall, stare or hold your arms out – these actions say you want to fight.

You can't out-run a kangaroo

If you feel threatened retreat in a crouched position. If attacked, drop to the ground and curl into a ball with your hands protecting your face and throat.

They might look cute and cuddly, but kangaroos can hurt people

- Keep your distance and supervise children
- Do not feed kangaroos
