 - (v) wetlands identified in *State Environmental Planning Policy No 14—Coastal Wetlands* and estuarine wetlands and to allow them to continue to function as feeding and breeding areas for wildlife, shellfish and fish,
- (f) to prohibit development within the zone that is likely to have a detrimental effect on the habitat or landscaping qualities or the flood mitigation function of wetlands,
- (g) to enable the development of land for other purposes where it can be demonstrated by the applicant for development consent that suitable land or buildings are not available elsewhere and that such use will not detrimentally affect the amenity of any existing or proposed nearby development, and

- (4) Notwithstanding any other provisions of this plan:
 - (a) the Council may consent to the erection of a dwelling-house or duplex on an allotment created by subdivision in accordance with subclause (2) if the Council is satisfied that development of the land has been carried out in accordance with subclause (1) and such development has generated sufficient demand to justify the erection of a dwelling-house or duplex,
 - (b) the Council may consent to the use of an allotment created pursuant to subclause (2) (b) for the purpose of the storage, packaging and sale of agricultural produce, refreshment rooms, shops or temporary accommodation for workers engaged in agriculture or a rural industry, and
 - (c) the Council shall not consent to the carrying out of any other development of land within Zone No 1 (h) that is proposed to be used for agricultural or horticultural purposes (other than walking trails, horse riding, bushfire access tracks, water supply or public

utility undertakings or for the purposes of a subdivision to facilitate the communal use of the land for any of those purposes).

16 Subdivision of land within Zone No 7 (f1)

 - (b) a ratio of depth to frontage satisfactory to the Council, having regard to the purposes for which the lot is or is intended to be used.
- (4) The Council may grant consent in respect of an application to subdivide land to which this clause applies so as to create one allotment, but not more than one, of less than 40 hectares if the Council is satisfied that:
 - (a) the allotment to be excised is intended to be used for a purpose (other than agriculture, forestry or a dwelling-house or dual occupancy) for which it may be used without or only with the consent of the Council, and
 - (b) where the allotment has a frontage to an arterial road, the frontage is not less than 200 metres.

17 Erection of dwelling-houses and duplexes in rural zones

 - (d) the allotment is an allotment that was lawfully created before the appointed day and on which a dwelling-house could lawfully have been erected immediately prior to the appointed day, and the Council is satisfied that adequate arrangements have been made for the provision of vehicular access to the site of the proposed dwelling-house or duplex.
- (2) A dwelling-house or duplex may, with the consent of the Council, be erected on an allotment of land within Zone No 1 (a), 1 (d), 1 (e) or 1 (h) on which another dwelling-house or duplex is situated if the firstmentioned dwelling-house or duplex is intended to wholly replace the secondmentioned dwelling-house or duplex. Where the Council grants consent under this subclause, the secondmentioned dwelling-house or duplex must be demolished within 6 months of occupation of the firstmentioned dwelling-house or duplex.

18 Rural workers' dwellings

- (1) This clause applies to land used for commercial farming within Zone No 1 (a).
- (2) In this clause, ***the total area of an existing commercial farming activity*** means the area of all adjoining and adjacent allotments on which a commercial farming activity is carried out and which are held in the same ownership at the time a development application is lodged for a rural workers' dwelling.
- (3) The Council shall not consent to the erection of a rural workers' dwelling on land to which this clause applies unless:

 - (c) any other rural worker's dwelling or all other rural workers' dwellings on the land are being used by persons substantially engaged in agricultural employment on that land,
 - (d) the rural worker to occupy the dwelling is to be directly and permanently employed for commercial farming purposes on that land by the owner of the land, and
 - (e) every dwelling-house (including rural workers' dwellings) within the total area of an existing commercial farming activity is situated on the same allotment.

19 Development of land within Zone No 7 (f1)

- (2) For the purposes of subclause (1), the Director (in deciding whether concurrence should be granted to a development application) shall take into consideration the likelihood of the proposed development:
 - (a) adversely affecting, or being adversely affected by, the sea or any bay, inlet, lagoon or lake,
 - (b) adversely affecting any beach or dune or the bed, bank, shoreline, foreshore, margin or flood plain of the sea or of an arm of the sea or of any bay, inlet, lagoon, lake, body of water, river, stream or watercourse, and
 - (c) adversely affecting the landscape or scenic quality of the locality.

Nothing in this plan prevents a person from erecting a fence within Zone No 7 (f1) without the consent of Council or the concurrence of the Director of Planning.

23 Development along arterial roads

- (1) The Council shall not consent to an application to carry out development on land which has frontage to an arterial road unless:

 - (e) the land has frontage to an arterial road, other than the Pacific Highway, is within Zone No 1 (a) and has a frontage of not less than 200 metres,

and, in the opinion of the Council, the safety and efficiency of the arterial road will not be adversely affected by:

- (f) the design of the access to the proposed development, or
 - (g) the emission of smoke or dust from the proposed development, or
 - (h) the nature, volume or frequency of vehicles using the arterial road to gain access to the proposed development.
- (2) The Council shall not consent to the development of land within Zone No 1 (a), 1 (d), 1 (e) or 1 (h) for any purpose specified in Schedule 5 if the development of the land for the purpose will require direct vehicular access to:
 - (a) an arterial road, or
 - (b) a road connecting with an arterial road, if the access to that road is within 90 metres (measured along the road alignment of the connecting road) of the alignment of the arterial road.
 - (3) Each lot created by a subdivision of land within Zone No 1 (e) or 1 (h) shall have vehicular access to a road other than an arterial road.

24 Advertising structures

 - (a) the advertising structure is used to display advertisements specific to the lawful use of the site on which the advertising structure is to be erected, and
 - (b) the Council is satisfied that the advertising structure will not interfere with the character or amenity of the area or jeopardise or impair traffic safety.
- (2) The Council shall not consent to the erection of an advertising structure on land adjacent to or adjoining an arterial road unless (after consulting with the Chief Executive of the Roads and Traffic Authority) it is satisfied that

the erection of the advertising structure will not jeopardise or impair traffic safety.

- (3) The Council may erect advertising signs for the purpose of providing space for general advertisements.

25 Provision of services

The Council shall not consent to the carrying out of any development of any land unless it is satisfied that adequate arrangements (where considered desirable by the Council) have been made for the provision of electricity, water, sewerage and drainage facilities to or from the land.

26 Flood prone land

- (1) The Council shall not grant consent to the erection of a building or the carrying out of works on land to which this plan applies if, in the opinion of the Council:
 - (a) the land is within a floodway, and
 - (b) the carrying out of the development is likely:
 - (i) to adversely impede the flow of flood waters on that land or land in its immediate vicinity,
 - (ii) to imperil the safety of persons on that land or land in its immediate vicinity in the event of those lands being inundated with flood waters,
 - (iii) to aggravate the consequence of floodwaters lying on that land or land in its immediate vicinity with regard to erosion, siltation or the destruction of vegetation, or
 - (iv) to adversely affect the water table of that land or of land in its immediate vicinity.
- (2) The Council shall not grant consent to the erection of a dwelling on flood prone land unless the floor level of the living accommodation of the dwelling is located at least 0.5 metres above the adopted 1 in 100 year flood level.

27 Development and acquisition of land within Zone No 8 (b)

- (1) Where an application for consent to the carrying out of development on land within Zone No 8 (b) is made to the Council, the Council shall furnish a copy of the application to the Director of National Parks and Wildlife.
- (2) Where, within 40 days after a copy of an application has been furnished to the Director of National Parks and Wildlife in accordance with subclause (1), the Director of National Parks and Wildlife gives written notice to the Council of any matter relevant to the development to which the application relates, the Council shall, before determining the application, make an assessment on the matters referred to in the notice.
- (3) The owner of any land within Zone No 8 (b) may, by a written notice, require the Director of National Parks and Wildlife to acquire the land.
- (4) On receipt of such a notice, the Director of National Parks and Wildlife must acquire the land.

- (1) The owner of any land shown in blue on any map titled "State Highway No 10—Pacific Highway—Shire of Ulmarra Sketch Plan" deposited in the office of the Council for the time being and indicating land of interest to the Roads and Traffic Authority adjoining the Pacific Highway and affected by

roadwork proposals or road widening schemes proposed by the Road and Traffic Authority may, by a written notice, require the Roads and Traffic Authority to acquire the land.

- (2) On receipt of such a notice, the Roads and Traffic Authority must acquire the land if:
- (a) the land is vacant, or
 - (b) the land is not vacant, but:
 - (i) the land is included in a 5 year works program of the Roads and Traffic Authority current at the time of receipt of the notice, or
 - (ii) the Roads and Traffic Authority has decided not to give concurrence under subclause (3) to an application for consent to the carrying out of development on the land, or
 - (iii) the Roads and Traffic Authority is of the opinion that the owner of the land will suffer hardship if the land is not acquired within a reasonable time,
- but the Roads and Traffic Authority is not required to acquire the land if it might reasonably be required to be dedicated for public road purposes.
- (3) A person may, with the consent of the Council and the concurrence of the Roads and Traffic Authority, carry out development on land shown in blue on any map titled "State Highway No 10—Pacific Highway—Shire of Ulmarra Sketch Plan" deposited in the office of the Council for the time being:
- (a) for a purpose for which development may be carried out on land in an adjoining zone, or
 - (b) for any other purpose which is compatible with development which may be carried out on land in an adjoining zone.
- (4) In deciding whether to grant that concurrence, the Roads and Traffic Authority shall take the following into consideration:
- (a) the need to carry out development on the land for the purpose for which the land is reserved, and
 - (b) the imminence of acquisition, and
 - (c) the likely additional cost to the Roads and traffic Authority resulting from the carrying out of the proposed development.
- (5) Land acquired under the clause may, with the consent of the Council, be developed for any purpose, until such time as it is required for the purpose for which it was acquired.
- (6) In this clause:
- vacant land** means land on which immediately before the day on which a notice under subclause (1) is given there were no buildings other than fences.

29 Land subject to bushfire hazards

The Council shall not grant consent to the carrying out of development on land within Zone No 2 which is subject to bushfire hazards (by reason of the vegetation on the land or on any adjacent land) unless, in the opinion of the Council:

- (a) adequate provision is made for access for fire fighting vehicles,
- (b) adequate safeguards are adopted in the form of fire breaks, reserves and fire radiation zones, and

- (c) adequate water supplies are available for fire fighting purposes.

- (b) to integrate heritage conservation into the planning and development control processes, and
- (c) to provide for public involvement in the matters relating to the conservation of the area's environmental heritage, and
- (d) to ensure that new development is undertaken in a manner that is sympathetic to, and does not detract from, the heritage significance of heritage items and their settings, as well as streetscapes and landscapes and the distinctive character that they impart to the land to which this plan applies.

31 Heritage items

- (1) A person must not, in respect of a building, work, relic, tree or place that is a heritage item:
 - (a) demolish or alter the building or work, or
 - (b) damage or move the relic,
 - (c) excavate for the purpose of exposing the relic,
 - (d) damage or despoil the place or tree,
 - (e) erect a building on or subdivide land on which the building, work or relic is situated or that comprises the place,
 - (f) damage any tree on land on which the building, work or relic is situated or on the land which comprises the place, or
 - (g) make structural changes to the interior of the building or work, except with the consent of the Council.
- (2) The Council must not grant consent to a development application required by subclause (1) unless it has taken into consideration the extent to which the carrying out of the proposed development would affect the heritage significance of the item and any stylistic or garden features of its setting.
- (3) The Council may require that a conservation plan accompany a development application under this clause to enable the Council to fully consider the heritage significance of the item and the impact of the proposed development on the significance of the item and its setting.

32 Development in the vicinity of heritage items

The Council may not grant consent to an application to carry out development on land in the vicinity of a heritage item unless it has made an assessment of the effect the carrying out of that development will have on the heritage significance of the item and its setting.

33 Heritage advertisements and notifications

- (1) Except as provided by this clause, the provisions of sections 84, 85, 86, 97

- (1) and 90 of the Act apply to and in respect of:
- (a) the demolition of a heritage item, and
 - (b) the use of a building or land referred to in clause 34 for a purpose which, but for that clause, would be prohibited under this plan,
- in the same way as those provisions apply to and in respect of designated development.
- (2) The Council may not grant consent to an application to demolish a heritage item unless:
- (a) the Council has notified the Heritage Council of its intention to grant consent, and
 - (b) the Heritage Council has no objection to the granting of consent.
- (3) The Heritage Council is to be taken as having no objection unless it notifies the Council of its objection not later than 28 days after receiving notice of the Council's intention to grant consent.
- (4) This clause does not apply to the partial demolition of a heritage item if, in the opinion of the Council, the partial demolition will be of a minor nature and will not adversely affect the heritage significance of the heritage item, building or work in relation to the environmental heritage of the land to which this plan applies.

34 Conservation incentives

- (1) Nothing in this plan prevents the Council from granting consent to an application to the use, for any purpose, of a building that is a heritage item or the land on which the building is erected if it is satisfied that:
- (a) the proposed use would have little or no adverse effect on the amenity of the area, and
 - (b) the conservation of the building depends on the Council granting that consent.
- (2) When considering an application to erect a building on land on which there is situated a building which is a heritage item, the Council may:
- (a) for the purpose of determining the floorspace ratio, and
 - (b) for the purpose of determining the number of parking spaces to be provided on the site,

exclude from its calculation of the floorspace of the buildings erected on the land the floorspace of the item, but only if the Council is satisfied that the conservation of the building depends on the Council making the exclusion.

35 Development of places of potential historical archaeological significance

Where the Council receives an application to carry out development on land which comprises a potential historical archaeological site, the Council may not grant consent unless:

- (a) it has received from the applicant and considered a conservation plan which includes an assessment of how the proposed development would affect the conservation of the site, and
- (b) in the case of development involving the disturbance or excavation of the land, any excavation permit required under Division 9 of Part 6 of the *Heritage Act 1977* has been obtained.

36 What is exempt and complying development?

- (1) Development of minimal environmental impact listed as exempt development in *Development Control Plan No 3: Exempt and Complying Development*, as adopted by the Council on 18 April 2001, is **exempt development** despite any other provision of this plan.
- (2) Development listed as complying development in *Development Control Plan No 3: Exempt and Complying Development*, as adopted by the Council on 18 April 2001, is **complying development** if:
 - (a) it is local development of a kind that can be carried out with consent on the land on which it is proposed, and
 - (b) it is not an existing use, as defined in section 106 of the Act.
- (3) Development is exempt or complying development only if it complies with the development standards and other requirements applied to the development by *Development Control Plan No 3: Exempt and Complying Development*, as adopted by the Council on 18 April 2001.
- (4) A complying development certificate issued for any complying development is to be subject to the conditions for the development specified in *Development Control Plan No 3: Exempt and Complying Development*, as in force when the certificate is issued.
